FusionUpdates

Oracle Fusion 26D readiness checklist

Preliminary · built 19 Oct 2026 from Oracle's published 26D What's New documents, Oracle's opt-in expiration list and the HCM Redwood changes tracked at fusionupdates.com

Preliminary. Oracle's 26D What's New documents are still being revised. Oracle's note on them: "This document will continue to evolve as existing sections change and new information is added." Check each linked Oracle page before you rely on an item. The latest version of this checklist is at https://fusionupdates.com/downloads/fusion-26d-readiness-checklist.pdf

When 26D arrives (typical dates)

Oracle's published rule: test environments update on the **first Friday** of the update month and production on the **third Friday**, two weeks later. In Middle East regions, updates happen on the Thursday before. The dates below follow that rule. Oracle doesn't publish them as a list, so confirm yours in the Oracle Cloud Console. Source: Oracle Fusion Insider, "Quarterly updates made easy".

Cohort	Test environments	Production	Note
Cohort A	Fri 06 Nov 2026	Fri 20 Nov 2026	
Cohort B	Fri 04 Dec 2026	Fri 18 Dec 2026	
Cohort C	Fri 01 Jan 2027	Fri 15 Jan 2027	This date is New Year's Day. Oracle may schedule this cohort differently, so check your own date.

1. Before the update: baseline regression

Based on Oracle's guidance: What Should I Test After a Quarterly Update?

- [ ] Validate your **current** configuration first; don't enable new features yet
- [ ] Key end-to-end business flows for each role (e.g. procure-to-pay, order-to-cash, plan-to-produce, hire-to-retire)
- [ ] Integrations: REST/SOAP APIs, FBDI/HDL imports, and third-party systems
- [ ] Critical custom reports and analytics (BI Publisher, OTBI)
- [ ] Custom workflows, approvals, extensions, and personalizations
- [ ] Security: roles and privileges for new or changed pages
- [ ] Features delivered automatically on, and the former opt-ins that become standard (section 2 below)
- [ ] Performance of key flows with production-like volumes
- [ ] Refresh your test environment from production before the test-environment update, as Oracle recommends

2. Opt-ins Oracle lists as ending with 26D (23)

From Oracle's Current Opt-In Expirations list. With 26D these become standard features. Oracle's "Now enabled" column shows Yes for 9 of them, and the rest need setup if you want to use them. If you already

opted in and finished setup, nothing changes. By area: 19 across Financials, Projects, Procurement and Supply Chain, 2 in Permitting and Licensing, 2 in Sales. Oracle can update this list.

Financials (1)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Revenue Equipment Leases	Financials: Procure to Pay · Asset Acquisition, Maintenance, and Lease	No	Set up if you want to use it

Procurement (1)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Redwood: Set up Supplier Registration and Profile Change Request	Procurement Common · Common Procurement	No	Set up if you want to use it

Supply Chain & Manufacturing (14)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Redwood: View License Plate Number in Electronic Records	Advanced Inventory Management · Advanced Inventory Management	No	Set up if you want to use it
☐	Redwood: Configure E-Signature Preferences	Inventory Management · E-Signatures and E-Records	No	Set up if you want to use it
☐	Redwood: Use Redwood Template for ERES Approval Notifications and Approve Using Deferred Mode	Inventory Management · Inventory Management	No	Set up if you want to use it
☐	Manage Global Maintenance Work Definitions	Maintenance · Maintenance	Yes	Nothing to do: on for everyone
☐	Manage Organizations for Global Work Definitions Using File-Based Data Import	Maintenance · Maintenance	No	Set up if you want to use it
☐	Move Materials from Staging Locations in the Factory Floor to Workstations	Manufacturing · Manufacturing	No	Set up if you want to use it
☐	Redwood: Complete an Item Multiple Times in a Discrete Manufacturing Work Order	Manufacturing · Manufacturing	No	Set up if you want to use it
☐	Redwood: Manage Global Work Definitions in an Item Master Organization	Manufacturing · Manufacturing	Yes	Nothing to do: on for everyone
☐	Redwood: Plan, Schedule, and Execute Parallel Operations in a Manufacturing Work Order	Manufacturing · Manufacturing	No	Set up if you want to use it
☐	Redwood: Report Material Scrap in a Discrete Manufacturing Work Order	Manufacturing · Manufacturing	Yes	Nothing to do: on for everyone
☐	Redwood: Track Work in Process Between Operations During Production Execution	Manufacturing · Manufacturing	No	Set up if you want to use it
☐	Stop an Operation and Correct Resource Usage During Production Supervision	Manufacturing · Manufacturing	No	Set up if you want to use it
☐	Redwood: Set Up Customer Pricing	Order Management · Pricing	Yes	Nothing to do: on for everyone

☐	Use Source Document as Transfer Price Basis for Orders in Back-to-Back Intercompany Transfers	Inventory Management · Supply Chain Financial Orchestration	Yes	Nothing to do: on for everyone

Project Management (3)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Project Change Requests and Consolidation into Change Orders	Project Management · Planning, Scheduling, and Forecasting	No	Set up if you want to use it
☐	Assignment Date and Role Updates when Replacing Resources	Project Management · Resource Management	Yes	Nothing to do: on for everyone
☐	Replacement Nomination Approval Workflow	Project Management · Resource Management	Yes	Nothing to do: on for everyone

Permitting and Licensing (outside the modules we track) (2)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Redwood Experience for Explore Your City	Permitting and Licensing · Permitting and Licensing Common	No	Set up if you want to use it
☐	Redwood Experience for Worklists	Permitting and Licensing · Permitting and Licensing Common	No	Set up if you want to use it

Sales (outside the modules we track) (2)

	Feature (Oracle source)	Product · module	Now enabled	What this means
☐	Migrating Generative AI features to AI Agents	Sales Force Automation · Redwood User Experience	Yes	Nothing to do: on for everyone
☐	Migrate Prompt-Based Generative AI Capabilities to Execution-Ready AI Agent	Sales Force Automation · Sales for Outlook	Yes	Nothing to do: on for everyone

3. HCM: pages switching to Redwood and other HCM notices in 26D (9)

Oracle announces these HCM changes in its HCM What's New documents as Redwood default switches (and a few end-of-support, migration or removal notices), not as opt-in expirations. They are not on Oracle's Current Opt-In Expirations list and are not part of the former opt-ins counts on this site. Where Oracle says so, you can still set the profile option back to No.

☐ **Redwood person pages by default (moved from 26C)** Global HR Switches to Redwood by default

Six person pages switch to Redwood by default in 26D; Oracle had planned this for 26C.

Pages affected (6): Personal Details, Contact Info, Identification Info, Family and Emergency Contacts, Additional Person Info, Person Identifiers for External Applications · Revert: Profile option can be set back to No · Oracle source 1 · Oracle source 2

Profile options named on Oracle's page: `ORA_PER_PERSONAL_INFORMATION_REDWOOD_ENABLED`, `ORA_PER_ADDITIONAL_PERSONAL_INFO_REDWOOD_ENABLED`, `ORA_PER_PERSON_IDENTIFIERS_FOR_EXT_APP_REDWOOD_ENABLED`

- [ ] **Redwood employment pages by default** Global HR Switches to Redwood by default
  21 employment pages, from Hire an Employee to Promote and Transfer, switch to Redwood by default in 26D.
  Pages affected (21): Add Assignment, Add Contingent Worker, Add Nonworker, Add Pending Worker, Additional Assignment Info, Cancel Work Relationship, Change Assignment, Change Legal Employer Dashboard, Change Location, Change Manager, Change Working Hours, Create Work Relationship, Direct Reports, Employment Contracts, Employment Info, Hire an Employee, Local and Global Transfer, Mass Legal Employer Change, Promote, Transfer, Work Relationship · Revert: Profile option can be set back to No · Oracle source
  Profile options named on Oracle's page: `ORA_PER_EMPL_ADD_ASG_REDWOOD_ENABLED`, `ORA_PER_ADD_CWK_REDWOOD_ENABLED`, `ORA_PER_ADD_NWK_REDWOOD_ENABLED`, `ORA_PER_ADD_PWK_REDWOOD_ENABLED`, `ORA_PER_ADDITIONAL_ASG_INFO_REDWOOD_ENABLED`, `ORA_PER_EMPL_CANCEL_WR_REDWOOD_ENABLED`, `ORA_PER_EMPL_CHG_ASG_REDWOOD_ENABLED`, `ORA_PER_EMPL_CLE_DASHBOARD_REDWOOD_ENABLED`, `ORA_PER_EMPL_CHG_LOC_REDWOOD_ENABLED`, `ORA_PER_EMPL_CHG_MGR_REDWOOD_ENABLED`, `ORA_PER_EMPL_CHG_WH_REDWOOD_ENABLED`, `ORA_PER_CREATE_WR_REDWOOD_ENABLED`, `ORA_PER_EMPL_MNG_DIR_REDWOOD_ENABLED`, `ORA_PER_EMPLOYMENT_CONTRACTS_REDWOOD_ENABLED`, `ORA_PER_EMPLOYMENT_INFO_REDWOOD_ENABLED`, `ORA_PER_HIRE_AN_EMPLOYEE_REDWOOD_ENABLED`, `ORA_PER_EMPL_LGT_REDWOOD_ENABLED`, `ORA_PER_EMPL_MLEC_REDWOOD_ENABLED`, `ORA_PER_EMPL_PROMOTE_REDWOOD_ENABLED`, `ORA_PER_EMPL_TRANSFER_REDWOOD_ENABLED`, `ORA_PER_WORK_RELATIONSHIP_REDWOOD_ENABLED`
- [ ] **Redwood workforce structures pages by default (second set)** Global HR Switches to Redwood by default
  Jobs, Locations, Departments, Enterprise HCM Information and Grade Ladders switch to Redwood by default in 26D.
  Pages affected (5): Departments, Enterprise HCM Information, Grade Ladders, Jobs, Locations · Revert: Profile option can be set back to No · Oracle source 1 · Oracle source 2
  Profile options named on Oracle's page: `ORA_PER_JOBS_REDWOOD_ENABLED`, `ORA_PER_LOCATIONS_REDWOOD_ENABLED`, `ORA_PER_DEPARTMENTS_REDWOOD_ENABLED`, `ORA_PER_ENTERPRISE_HCM_INFORMATION_REDWOOD_ENABLED`, `ORA_PER_GRADE_LADDERS_REDWOOD_ENABLED`
- [ ] **Redwood My Compensation and Compensation Info by default** Compensation Switches to Redwood by default
  My Compensation and Compensation Info open in Redwood by default from 26D.
  Pages affected (2): My Compensation, Compensation Info · Revert: Site-level profile option ORA_CMP_SPOTLIGHT_REDWOOD_ENABLED can be set to No · Oracle source
  Profile options named on Oracle's page: `ORA_CMP_SPOTLIGHT_REDWOOD_ENABLED`
- [ ] **Responsive Career Development pages no longer supported** Learning Migration
  Responsive Career Development pages are no longer supported after 26D; anyone still on them moves to Redwood automatically in 27A.
  Pages affected (2): Me > Career > Career Development, My Team > Career Overview > Performance · Revert: None stated: automatic move to Redwood in 27A · Oracle source
- [ ] **Old recommendations framework stops** Learning Removal
  If the new Recommendations framework (available since 25A) is not enabled before 26D, recommendations no longer appear in Oracle Learning.
  Pages affected (1): Recommendations in Oracle Learning · Revert: None stated · Oracle source
- [ ] **Process Automation task type removed from journey setup** Journeys Removal
  From 26D you can no longer create journey tasks with the Process Automation task type; Oracle Process Automation reaches end of life on 31 October 2026.
  Pages affected (1): Journey templates, task groups and task library · Revert: None stated · Oracle source
- [ ] **Create Time Card Calculation Component process disabled** Payroll Removal
  From 26D the Create Time Card Calculation Component process is disabled; Oracle asks you to reimplement upgraded time elements by 27D.
  Pages affected (1): Time elements upgraded with Create Time Card Calculation Component · Revert: None stated · Oracle source
- [ ] **Digital Assistant on recruiting sites phased out** Recruiting End of support
  From November 2026 Oracle no longer supports Digital Assistant Fusion Apps templates; only sites that already use it keep it for now.
  Pages affected (1): Recruiting career sites using Digital Assistant · Revert: None stated · Oracle source

Already announced for 27A and later (9)

- [ ] 27A: Redwood Resign, Terminate and Mass Assignment Change by default (Global HR, Oracle source)
- [ ] 27A: Redwood Positions pages and guided processes by default (Global HR, Oracle source)
- [ ] 27A: Only Redwood calculation cards supported (Canada) (Payroll (Canada), Oracle source)
- [ ] 27A: Only Redwood Employee Tax Card supported (Mexico) (Payroll (Mexico), Oracle source)
- [ ] 27A: Apply with Indeed discontinued (Recruiting, Oracle source)
- [ ] 27A: Learning BI Cloud Connector extracts replaced (Learning, Oracle source)
- [ ] 27B: Legacy person navigation disabled by default (Global HR, Oracle source)
- [ ] 27B: Classic job search decommissioned; Smart Search on by default (Recruiting, Oracle source)
- [ ] 27C: Calendar event template switched on (Learning, Oracle source)

4. Read Oracle's 26D What's New documents

Check each product's "IMPORTANT Actions and Considerations" section and the features delivered switched on. Plain-English 26D summaries by module follow on fusionupdates.com/26d/.

Financials: Financials · Risk Management (Classic) · Self Service Financials

Project Management: Project Management

HCM: Absence Management · Benefits · Compensation · Human Resources · Learning and Development · Payroll · Recruiting · Talent Management · Time and Labor · Workforce Scheduling

Logistics (OTM, GTM, WMS): Warehouse Management

Supply Chain & Manufacturing: Demand Management · Inventory Management · Maintenance · Manufacturing · Order Management · Product Lifecycle Management · Supply Chain Collaboration · Supply Planning · Sales and Operations Planning

Procurement: Procurement · Self Service Procurement
